Conditional Enrollment Agreement

I _____ the parent/guardian of _____ understand that Walton Virtual School requires my child to meet all conditions that foster a successful online education. During the first **10** days of enrollment, he/she will be evaluated by the course instructors and administration based on the following minimum conditions of a successful online student:

1. Consistent parent/guardian supervision
2. Maintaining appropriate academic pace in all courses (5% in each class each week)
3. Establish regular communication with all teachers
4. Daily engagement in course activities. This is a minimum of 5-7 hours per day
5. Maintaining a passing average of a “D” or higher in all coursework
6. Honoring the Student Contract and the Academic Integrity Contract established by Walton Virtual School for student conduct
7. Attendance at all required standardized testing required by Walton County School District and the State of Florida

If during the first **5** days of course enrollment it is determined by Walton Virtual School that my child is not fulfilling the conditional agreement, he/she will receive a warning about the possibility of being withdrawn by the teacher/administration. The student will have **5** days to make an improvement or a mandatory meeting will be scheduled with the administrator and guidance counselor to discuss other options. Students in the Exceptional Student Education program have options for the provisions of ESE services while enrolled in a virtual education program. An IEP meeting may be scheduled at the virtual school office upon request.
