Student Academic Integrity Contract

As a student with Walton Virtual School, the student will refrain from any form of academic dishonesty or deception, such as cheating and plagiarism. The student will not practice any of the following behaviors of academic dishonesty:

Collusion – When a student knowingly allows his/her work to be submitted for assessment by another student. This includes cheating on assignments, tests, and projects. This also includes unauthorized collaboration on an assignment and copying each other’s work so that it is identical or almost identical in nature.

Plagiarism – When a student submits unacknowledged work, thoughts, or ideas of another person as the student’s own. If plagiarism is suspected, it is always the burden of the student to prove that his/her work is not plagiarized. Proof consists of producing notes as well as resources.

If after an investigation, it is found that either of these has occurred, the student will be assigned a zero on the assignments that were affected. The student will have 48 hours to resubmit the assignment or the zero will stand.
