CHAPTER 2.00 - SCHOOL BOARD GOVERNANCE AND ORGANIZATION

BOARD MEETINGS

All official School Board meetings shall be open to the public and all informal meetings and conferences involving School Board members shall be conducted as public meetings unless specifically exempted by Florida Statutes. No official action may be taken by the School Board at any time other than an official meeting.

I. Regular School Board meetings shall be established at the organizational meeting which is held in November. The regular meeting date may be changed by School Board action at any previous meeting, provided that each member is notified by letter or by distribution of the minutes showing a record of the change. When a meeting date is changed, the Superintendent shall take appropriate action to inform the public.

A. Special meetings shall be held at the time designated by the Superintendent, School Board chairperson, or when called by a majority of the School Board members as specified in written notice.

B. Emergency meetings may be held at any time by the Superintendent either upon his/her initiative or upon the School Board chairperson’s request. An emergency meeting may be called as quickly as complying with notification procedures; School Board members shall be given a tentative agenda during the notification.

1. The Superintendent shall prepare and distribute an agenda prior to the emergency meeting.

2. The agenda, the need for the emergency meeting, and the results of the emergency meeting shall be available to the public within twenty-four (24) hours of said meeting.

3. Emergency meetings shall be conducted in the same manner as prescribed for regular and special meetings.
II. Regular, special, and emergency meetings of the School Board shall be held in the regular Board meeting room. As provided by Florida Statutes, any regular or special meeting may be held at any other appropriate public place within the District by giving prior public notice of at least forty-eight (48) hours. When such a meeting is scheduled or re-scheduled at a location other than the regular meeting place, the Superintendent shall take such action to give public notice as required by Florida Statutes.

III. All School Board meetings shall be conducted in accordance with Robert's Rules of Order.

IV. Any item to be placed on the agenda of a regular School Board meeting shall be submitted, in writing, to the Superintendent’s office no later than two o’clock (2:00 p.m.), eight (8) working days prior to the meeting at which consideration is desired. This rule shall not preclude the right of any citizen to address the School Board; however, except for good cause as determined by the chairperson, the School Board shall not take action on any substantive proposal until such matter has been formally placed on the School Board agenda. Copies of the agenda for regular meetings shall be made available at least seven (7) days prior to the scheduled meeting date to the public or other parties who have expressed a desire for such copy of the agenda. Copies of the agenda for a special meeting shall be prepared at least forty-eight (48) hours prior to such meeting.

3. Content of the information to be presented - if written material is to be passed out, a copy of such material shall accompany the request.
CHAPTER 2.00 - SCHOOL BOARD GOVERNANCE AND ORGANIZATION

4. An estimate of the time necessary for such a discussion.
5. Specific action desired of the Board.

6. Any charges to be made against an individual shall be in affidavit form. If any information is to be presented that is in the form of a statement or charges that might be considered derogatory or of a serious nature, such shall be presented in writing and shall specifically state the charges in the form of an affidavit.

B. The Superintendent shall respond verbally or in writing to any person or group requesting to be placed on the agenda. In the event the agenda for the next regular meeting is unduly long, the Superintendent shall place the presentation request on the agenda for the following regular meeting. If a question should arise in regard to the granting of a request, the Superintendent and the chairperson shall confer and make a decision. If they cannot reach a mutual decision, the decision of the chairperson shall prevail.

C. At any School Board meeting, unless otherwise ordered by majority consent of the Board members present, the maximum amount of time allowed for presentation of, and discussion on, the subject matter of any such request shall be thirty (30) minutes, distributed as follows: ten (10) minutes to the maker of the request; ten (10) minutes to any opponent of the proposition of such maker; and ten (10) minutes for questions and discussion by the Superintendent and the Board.

D. Any person or representative of an organization or group who has not made prior arrangements as prescribed herein may be heard, at the School Board’s discretion, during the public comment portion of the regular agenda of a School Board meeting, provided that the information in IV.A. herein has been furnished to the Chairman in writing prior to or during the meeting. A member of the public shall not use a student’s name if he/she is making a complaint or addressing a concern. Individuals who address the School Board shall be limited to five (5) minutes.
E. All agenda items on which action is deferred shall be listed on the next agenda under Unfinished Business unless a time certain is specified.

F. The Superintendent shall either answer correspondence sent to the School Board or bring it to the School Board’s attention at its next meeting by placing it on the agenda for information or School Board action.

V. The Superintendent may submit an emergency item(s) to the Board after the agenda has been published. The chairperson may refuse to add the item if he/she believes that it is not necessary to take action prior to the next scheduled meeting.

VI. A majority shall constitute a quorum for any School Board meeting. No business shall be transacted unless a quorum is present. There is no meeting for a minority to adjourn. Unless a majority is present, no meeting can be convened.

VII. The vote shall be unanimous if all members audibly vote “yes” or otherwise indicate an affirmative vote.

When a split vote occurs, the minutes shall show the vote of each member on the question. Each member who is present shall vote on each decision, ruling, or official act which is taken or adopted by the School Board, unless there is or appears to be a conflict of interest under the provisions of Florida Statutes. In such cases the member may abstain, but shall file a memorandum pursuant to requirements of Florida Statutes.
VIII. The official minutes of the School Board shall be kept as prescribed by Florida Statutes. The minutes shall be kept in a safe place by the Superintendent and shall be made available by the Superintendent during the time the office is open to any citizen desiring to examine the minutes.

A. Only motions, resolutions, and the necessary information related thereto; the name of the person making the motion or submitting the resolution; the name of the person who seconds the motion; and, the vote or action thereon shall be recorded.

A. Any School Board member or Superintendent who wishes any of his/her statements to be recorded may request during the meeting that such become a part of the official minutes.

B. Any other matter may be made part of the official minutes by direction of the chairperson or by a majority of the School Board.

C. Lengthy material such as, but not limited to, student assignments may be maintained in record books which are separate from, but supplemental to the basic record of minutes.

IX. Members of the public shall have an opportunity to address the School Board at a public meeting regarding any proposition before the Board. Speakers shall adhere to the rules established by the Board in accordance with Florida Statutes.

X. The public shall be informed that it is unlawful to knowingly disrupt or interfere with a School Board meeting and that any such action may result in a misdemeanor offense of the second degree. This includes individuals who advise, counsel, or instruct students or School Board employees on techniques for disrupting a School Board meeting.
XI. Workshops may be scheduled by the School Board as deemed appropriate. No formal action may be taken by the School Board during such workshops.

I. Purpose.

The Board recognizes the need during this health emergency posed by the spread of COVID-19 to hold virtual or telephonic meetings as set forth in the March 17, 2020 Florida Department of Education’s Additional Guidance for the 2019-2020 School Year, and for reasons allowed by Executive Order Number 20-69, DOE directive, Attorney General Opinion, or Florida Law (hereinafter referred to as “Directives”).

II. Emergency Meetings During This Time.

This Policy modifies and supersedes School Board Policy 2.22 on Board meetings. This Policy is consistent with the directives to address items during this time and hold virtual or telephonic meetings where a quorum of Board members is not required to be physically present at the meeting in order to conduct and vote upon business. These meetings must be accessible to interested members of the public who wish to attend.

III. Public Comment.

In addition, this Policy modifies certain provisions in Policy 2.22 relating to public comment and allows public comment on agenda items through e-mailing comments or by telephonic accessibility through connection information posted on the School Board’s website and other available public forums. All emails received two (2) hours prior to the scheduled meeting will be provided to Board members in advance of the meeting. All comments addressed during the meeting will be included in the minutes of the Board meeting. The Meeting Notice shall state:

A. how interested persons can attend virtually and
B. the method for public comments to be made in writing.

IV. Authority.

This policy supersedes any other policy and Policy 2.22 that is not consistent with the language herein relating to these emergency Board meetings.

As used in these rules, the term *rule* and *policy* shall have the same definition.

These rules may be amended, repealed, or a new rule adopted as hereinafter prescribed. The term *rule* is defined in Florida Statutes; it does not include “curricula by an educational unit,” thereby, removing the development or prescription of curriculum by a School Board from the procedural requirements established for rule making.

I. Unless an emergency exists, any proposal relating to a rule amendment, the repeal of any rule, or the adoption of a new rule shall be presented in writing to the School Board including a written explanation of the proposal.

A. The Superintendent shall give immediate and proper written notice to the public pursuant to the provisions of Florida Statutes, when the School Board has determined that it will give due consideration to the proposal for adoption, amendment, or repeal of a rule. The notice of a public hearing shall be advertised twenty-eight (28) days prior to the date of the hearing. The notice shall include a brief and concise explanation of the proposed rule’s purpose and effect, the estimate of economic impact to all individuals affected by the proposed rule or rule amendment, the specific legal authority for the School Board’s action, and the location where the text of the proposed change may be obtained.

B. Any person who is substantially affected by a proposed rule, rule amendment, or the repeal of a rule, may within twenty-one (21) days following notice of intent to adopt or repeal such rule, file a written request with the School Board seeking an administrative determination as to the validity of the proposed rule action.

C. The Superintendent shall file immediately in his/her office a copy of any new rule, rule amendment, or repeal of rule adopted by the School Board; policy handbooks shall be amended accordingly.

D. Such rules shall become effective upon adoption by the School Board unless a time certain date is specified therein.

II. Any person substantially affected by an existing School Board rule may petition the Division of Administrative Hearings, Florida Department of Administration, to conduct a hearing on the rule validity pursuant to Florida Statutes. Any hearing examiner’s decision which is adverse to the School Board may, upon the School Board’s appeal, be judicially reviewed. Any hearing examiner’s decision which is adverse to the person substantially affected may, upon that person’s appeal, be judicially reviewed.
III. The School Board may determine that the public health, safety, or welfare is endangered and that immediate action is required to protect the public interest. When this occurs, the School Board, at any meeting in which a quorum is present, may adopt emergency rules, without complying with the waiting period as provided in section I. herein for public hearings and other similar requirements. The Superintendent shall properly record the effective date for any such emergency rule. Any emergency rule shall not be valid in excess of ninety (90) days from the adoption or effective date.

IV. Any School Board employee, citizen, or agency may obtain information relating to the method for proposing a rule or may submit a rule proposal to the Superintendent’s office.

V. A copy of the compiled rules shall be available for inspection in the Superintendent’s office, the principal’s office, and in the library of any school.

VI. Copies of the School Board rules shall be assigned to various positions within the District as determined by the Superintendent.

A. A copy of any rule change shall be made available by the Superintendent to each holder of the compilation who shall be responsible for entering all changes immediately upon receipt.

B. A copy of the School Board rules manual shall be available to all staff members either in the principal’s office or school library. The school principal shall keep the compilation current.

C. The principal shall inform his/her staff members of the location of the School Board rules and any changes.

VII. A School Board rule may be waived only to provide and implement overall goals and objectives of the School Board and to protect and preserve the health, safety, and welfare of the affected individual(s). Waiver of a School Board rule shall be addressed and a decision rendered regarding its waiver at a regular, special or emergency School Board meeting. A waiver of a School Board rule shall not render the policy void with respect to the continued implementation of the rule which is sought to be waived.

B. As required by state law, the Superintendent shall require the use of the Safe School Assessment Survey based on the School Safety and Security Best Practices Indicators created by FL DOE Safe School Assessment Tool (FSSAT) to conduct a self-assessment of the District’s current safety and security practices.

C. Upon completion of these self-assessments, the Superintendent shall convene a safety and security review meeting for the purpose of (a) reviewing the current School Safety and Security Plan and the results of the self-assessment; (b) identifying necessary modifications to the plan;

CHAPTER 3.00 - SCHOOL ADMINISTRATION

I. Copies of school plans shall be provided county and city law enforcement agencies, fire departments, and emergency preparedness officials.

V. Threat Assessment

A. The primary purpose of a threat assessment is to minimize the risk of targeted violence at school. The Board’s threat assessment process is designed to be consistent with the process set forth in the joint U.S. Secret Service and U.S. Department of Education publication, Threat Assessment in Schools: a Guide to Managing Threatening Situations and to creating Safe School Climates for identifying, assessing, and managing students who may pose a threat. The goal of the threat assessment process is to take appropriate preventative or corrective measures to maintain a safe school environment, protect and support potential victims, and provide assistance, as appropriate, to the student being assessed. The threat assessment process is centered upon an analysis of the facts and evidence of behavior in a given situation. The appraisal of risk in a threat assessment focuses on actions, communications, and specific circumstances that might suggest that an individual intends to cause physical harm and is engaged in planning or preparing for that event.

B. The Board authorizes the Superintendent to create building-level, trained threat assessment teams. Each team shall be headed by the principal and shall include a person with expertise in counseling (school/psychological), instructional personnel, and law enforcement (school resource officer) and provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self.

1. The threat assessment team will be responsible for the assessment of individuals whose behavior may pose a threat to the safety of school staff and/or students and coordinating resources and interventions for the individual.

2. If a student with a disability is reported to have made a threat to harm others and the student’s intent is not clear, a referral will be made to the threat assessment team for evaluation.

3. Upon a preliminary determination that a student poses a threat of violence or physical harm to him/herself or others, the threat assessment team may obtain criminal history record information. The team must immediately report its determination to the Superintendent who must immediately attempt to notify the student’s parent or legal guardian. A parent or guardian has the
right to inspect and review the threat assessment. The team will coordinate resources and interventions to engage behavioral and or mental health crisis resources when mental health or substance abuse crisis is suspected.

4. The threat assessment team must plan for the implementation and monitoring of appropriate interventions to manage or mitigate the student’s risk for engaging in violence and increasing the likelihood of positive outcomes.

5. Upon the student’s transfer to a different school, the threat assessment team must verify that any intervention services provided to the student remain in place until the threat assessment team of the receiving school independently determines the need for intervention services. Threat assessment teams must meet as often as needed to fulfill their duties of assessing and intervening with persons whose behavior may pose a threat to school staff or students, but no less than monthly. The teams must maintain documentation of all meetings, including meeting dates and times, team members in attendance, cases discussed and actions taken.

VI. Safety – Procedures

A. School alarms shall be monitored on a weekly basis and malfunctions shall be reported for immediate repair.

B. A safety program shall be established consistent with the provisions of Policy 8.10. The emergency preparedness procedures will identify the individuals responsible for contacting the primary emergency response agency and the emergency response agency that is responsible for notifying the school district for each type of emergency.

C. Emergency evacuation drills (fire, hurricane, tornado, active assailant/hostage situation, other natural disaster, and school bus) shall be held in compliance with state requirements and formulated in consultation with the appropriate public safety agencies. Each principal, site administrator or transportation official is responsible for

1. Developing and posting emergency evacuation routes and procedures;

measures; and

4. Preparing and submitting a written report of each emergency evacuation drill to the District office.

Except that the principal may dismiss the school when the Superintendent or designee cannot be contacted and an extreme emergency exists endangering the health, safety, or welfare of students. Any such actions shall be reported immediately to the Superintendent or designee along with a statement describing the reasons for the action. Such report shall be submitted to the School Board at the next regular meeting unless a special meeting is held relating to the emergency.

E. Parents, as defined by law, have a right to timely notification of threats, unlawful acts, and significant emergencies that occur on school grounds, during school transportation or during school-sponsored activities pursuant to sections 1006.07(4) and (7), F.S.

5. The School Safety Specialist will develop a process related to safety used to identify and correct instances of noncompliance at the school.

CHAPTER 4.00 – CURRICULUM AND INSTRUCTION

EXERTIONAL HEAT ILLNESS

I. Purpose of policy:

This policy describes the best practice procedures for the prevention, monitoring, and when necessary, the treatment of exertional heat illnesses for students/athletes, faculty, and staff of Walton County School District. This policy applies to all staff members, including but not limited to athletic trainers, physicians, athletic administrators, coaches, strength and conditioning staff, and school administrators who are associated with activities where heat illness poses a risk, including but not limited to, outdoor and indoor activities where high temperature and specifically, high humidity environmental risks are present (e.g., athletics, intramurals, course instruction, marching band). Exertional heat illness includes exercise-associated muscle cramps, heat syncope, heat exhaustion, and exertional heat stroke (EHS)). Current best practice guidelines suggest that the risk of exertional heat injuries can be minimized with heat acclimatization and diligent attention to monitoring individuals participating in activities that place them at a higher risk for these types of injuries. In the event an athlete sustains a heat illness, immediate and proper treatment is necessary.

II. Definitions:

A. **Acclimatization** – The process of gradually increasing the intensity of activity in a progressive manner that improves the body’s ability to adapt to and tolerate exercise in the heat. The acclimatization period is defined as the first 14 calendar days of a student-athletes’ participation, beginning with the first allowable date of practice in the sport of the first day an athlete begins official practice, whichever is later.

B. **Wet Bulb Globe Temperature** – The WBGT is a measurement tool that uses ambient temperature, relative humidity, wind, and solar radiation from the sun to get a comprehensive measure that can be used to monitor environmental conditions during exercise. WBGT is different than heat index, as it is a more comprehensive measurement of environmental heat stress on the body.

C. **Non-Practice Activities** – Activities that include meetings, injury treatment, and film study.
D. **Practice** – The period of time that a student-athlete engages in coach-supervised, school approved sport or conditioning related-activity. Practice time includes from the time the players report to the field until they leave.

E. **Walk Through** – A period of time where players are reviewing positional strategy and rehearsing plays. Players do not experience contact and thus they do not wear equipment and the intensity of the activity is minimal often involving walking. This period of time shall last no more than one hour. It is not considered part of the practice time regulation. It may not involve conditioning or weight room activities. Players may not wear protective equipment during the walk through.

F. **Recovery Time** – This period of time is defined as non-activity time outside of practices or games. NO ACTIVITY, including non-practice activity, can occur during this time. When it is possible, proper recovery should occur in an air-conditioned facility for a minimum of 3 hours in duration.

G. **Rest Breaks** – This period of time occurs during practice and is a non-activity time that is in a ‘cool zone’ out of direct sunlight.

H. **Exertional Heat Stroke (EHS)** – Defined as having a rectal temperature over 104°F-105°F (40.5°C), and central nervous system dysfunction (e.g. irrational behavior, confusion, irritability, emotional instability, altered consciousness, collapse, coma, dizzy, etc.).

I. **Cooling Zone** – An area out of direct sunlight with adequate air flow to assist in cooling. A cold-water or ice tub and ice towels should be available to immerse or soak a patient with suspected heat illness This may be outdoors or indoors depending on proximity to field.

J. **Qualified Health Care Professional (QHP)** - As defined by the American Medical Association (AMA), “is an individual who is qualified by education, training, licensure/regulation (when applicable), and facility privileging (when applicable) who performs a professional service within his/her scope of practice and independently reports that professional service.”

K. **Hypohydration** – (reduced hydration status) is a deficit of body water that is caused by acute or chronic dehydration.
L. **Central Nervous System dysfunction**- includes any sign or symptom that the central nervous system is not working properly, including: dizziness, drowsiness, irrational behavior, confusion, irritability, emotional instability, hysteria, apathy, aggressiveness, delirium, disorientation, staggering, seizures, loss of consciousness, coma, etc.

III. Monitoring Heat Stress - Schools must monitor heat stress. Heat stress is determined by measuring the ambient temperature, humidity, wind speed, sun angle and cloud cover at the site of the athletic activity. School are required to follow and adhere to the guidelines set forth by the FHSAA for heat stress readings.

A. A pre-participation history and physical exam is required. Individuals with risk factors will be identified and counseled on heat illness.

B. The athletic trainer or persons responsible will be notified of individuals with pre-existing conditions that place the individual at risk of exertional illness.

C. Coaches will be notified of individuals at higher risk as needed.

IV. Each athletic coach involving outdoor practices or events shall annually complete training in exertional heat illness identification, prevention, and response, including the effective administration of cooling zones.

V. Environmental Monitoring and Activity modification/Cancellation

A. Environmental monitoring will occur utilizing a WBGT device, Weather Stem.

B. Environmental monitoring will occur any time it is warm outside (i.e. over 70°F).

C. Environmental monitoring and activity modifications may be necessary for certain types of indoor facilities.

D. Monitoring of WBGT will occur every 30 minutes beginning at the scheduled practice time.

E. All environmental monitoring will be recorded and stored either hard copy or electronically.
CHAPTER 4.00 – CURRICULUM AND INSTRUCTION

F. Modifications will be made in accordance with the best practice guidelines for our region. (School District) is in the southern region and will follow the guidelines based on the Florida High School Athletic Association policy.

VI. Acclimatization protocols apply to all sports. Days 1 through 5 of the heat acclimatization period consists of the first 5 days of formal practice. During this time, athletes may not participate in more than one (1) practice per day. If a practice is interrupted by inclement weather or heat restrictions, the practice will recommence once conditions are deemed safe. Total practice time will not exceed 3 hours in a single day. A 1-hour maximum walk-through is permitted during days 1-5 of the heat acclimatization period. A 1-hour recovery period will take place between the practice and walk-through (or vice versa).

VII. Student-athletes who participate in activities that last for an extended amount of time or multiple activities in a day should be provided electrolytes to assist in rehydration. Rest breaks must involve unlimited hydration intake and rest without any activity involved.

VIII. Coaches are required to adopt a heat injury prevention philosophy by promoting unrestricted access to water at all times. A student-athlete should never be denied access to water.

IX. The school’s emergency action plan must include a procedure for onsite cooling using cold-water immersion or equivalent means before a student-athlete is transported to a hospital for exertional heatstroke.

X. Cooling zones must be available for each outdoor athletic contest, practice, workout, or conditioning session. Cooling zones must include the immediate availability of cold-water immersion tubs or equivalent and may also include ice sponges and towels or tarps that can be filled with ice and wrapped around individuals to rapidly cool internal body temperature. An employee or volunteer trained to administer cold-water immersion must be present.
I. All student clubs and organizations shall be approved by the principal before they can operate within a school center.

II. All student clubs and organizations shall comply with the following:

   A. The decision of a member of an organization shall not be one of the factors in selecting additional members.

   B. The charter and constitution of each student club or organization shall set forth the purposes, qualifications for members, and the rules of conduct and shall be maintained on file for immediate reference by all students and instructional personnel of the school.

   C. There shall be no type of hazing in any club or organization within the school. Hazing shall be defined as any action or situation for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of the school which recklessly or intentionally endangers a student’s mental or physical health or safety.

   D. Dues shall be reasonable and not prohibitive.

   E. All meetings shall be held on School Board property. This may be waived for special meetings and events upon the faculty sponsor’s request and principal’s approval.

   F. A faculty sponsor shall be present at all meetings.

   G. All social events shall be adequately chaperoned.

   H. All monies accruing to any school club or organization shall be accounted for through the school’s internal accounting system.
I. A student club or organization shall not conduct any activity or act which violates Florida Statutes, School Board rules, or the regulations of the local school.

III. Any school club or organization which engages in an initiation ceremony for its members shall prepare and submit the program of initiation exercises to the faculty sponsor for review and approval by the school principal.

I. Administering Medical Marijuana to Qualified Students on District Property

C. Medical marijuana/low THC cannabis cannot be administered to a qualifying student/patient while aboard a school bus or at a school-sponsored event.

V. Criminal Background Check

A. Initial Employment

1. Any offer of employment with the School District is conditioned on submission of fingerprints as required by Florida Statute and a background investigation by the Florida Department of Law Enforcement (FDLE) and the Federal Bureau of Investigation (FBI). After a job offer, but prior to beginning employment with the District, all candidates for all positions must undergo a criminal and employment background check (including verification of work authorization status through the E-Verify system beginning January 1, 2021) to determine suitability for employment. The application for employment shall inform applicants they are subject to criminal background checks and advise applicants that failure to be truthful on the application about prior criminal history will be grounds for ineligibility or dismissal from employment.

2. As a condition of employment and prior to beginning work, an applicant who has received a conditional job offer must file a complete set of fingerprints taken by an employee of the District trained to take fingerprints. The fingerprints shall be processed by the Florida Department of Law Enforcement (FDLE) and the Federal Bureau of Investigation (FBI). The applicant shall be required to pay for full costs of processing at the time of fingerprinting.

3. The Superintendent or designee shall conduct employment history checks of applicants for instructional, administrative or any other positions requiring direct contact with students. The employment history check shall include, but not be limited to, screening through the use of educator screening tools described in law and contact with each previous employer. All findings shall be documented. If the Superintendent is unable to contact a previous employer, he/she shall document all efforts to contact the previous employer.
4. No applicant who has received a conditional job offer shall begin work before his/her fingerprints are processed, the criminal and pre-employment investigation is completed, and a determination is rendered as to suitability for employment.

5. Based upon the facts of an application, criminal background check or other valid or reliable data sources, applicants who are, or have been convicted of certain serious offenses may be denied employment by the School District. As used in this section the term conviction is defined as a finding of guilt, a plea of guilty, or a plea of nolo contendere, or a verdict of guilty. The withholding of adjudication or the entry of an order sealing or expunging the record requiring a pre-trial intervention or pre-trial diversion shall not be considered an exception to this section. Other information derived from the pre-employment investigation, which indicates the applicant may not be suitable for employment by the School District, may be grounds for denying employment to an applicant.

6. An applicant shall be disqualified from employment in any position requiring direct contact with students if he/she is ineligible for employment under 1012.315, F.S.

7. Any instructional or noninstructional person under contract to the School District to operate student programs, student teachers, persons participating in short-term teacher assistance experiences or field experiences who have direct contact with students must meet the requirements of V.A.1., 2., 3 and 4. Such persons may not be in direct contact with students if ineligible under 1012.315, F.S.

If it is discovered during the period of employment that a regular employee has a prior criminal record and that the employee was requested to provide this information at the time of hire, but did not do so, the employee may be subject to disciplinary action, including dismissal for submitting false information on the employment application, or otherwise having misled the District.

3. If it is discovered during the period of employment that an employee has a prior criminal record and no falsification of an application nor attempt to mislead occurred, the record shall be reviewed by the Director of Personnel. The Director of Personnel shall consider all information, including any mitigating conditions, and report findings of fact, possible mitigating circumstances and recommendations for action to the Superintendent. The employee shall have the opportunity to respond in writing to the findings and recommendation. The Superintendent shall review the record, recommendation and response before taking appropriate action. Appeal of the Superintendent’s action shall follow collective bargaining agreements or School Board Policy, as appropriate.

4. Instructional personnel and noninstructional or contractual personnel who have direct contact with students or have access to or control of school funds must meet the screening requirements described in law every five (5) years. Personnel whose fingerprints have not been maintained by the Department of Law Enforcement are required to be refingerprinted.

5. An employee whose criminal record after employment would disqualify him/her from employment shall be subject to disciplinary action up to and including termination.

VI. Drug Testing

A. Initial Employment
1. A negative drug screen will be a requirement of initial employment. An applicant who has been offered a position will be referred to a Board approved, independent, certified laboratory. The drug screen must be conducted within thirty (30) days prior to employment. The cost of the drug screening will be the responsibility of the applicant.

2. Applicants testing positive will not be eligible for employment by the School Board for one (1) year from the date of the test. Refusal to participate in the drug screening will prohibit an applicant from employment with the Board.

CHAPTER 6.00 – HUMAN RESOURCES

Director of Personnel only if they present new information not previously available.

B. Applicants who have been denied employment and probationary employees who have denied permanent employment because of their criminal record, background check and/or drug screening may appeal to the Superintendent. Applicants and probationary employees shall receive written notice of the right to appeal the decision by the Director of Personnel to the Superintendent. The appeal must be in writing and may respond to the findings and decision of the Director of Personnel. If new information is to be submitted, the applicant must first request reconsideration by the Director of Personnel. The Superintendent’s decision shall be final.

VIII. Acceptance of Appointment

Failure to signify acceptance of appointment within ten (10) days after receipt of the official notice of appointment shall be considered a rejection of the offer and the position shall be declared vacant.

IX. The District shall ensure that all aspects of the recruitment and selection process are job-related and are consistent with business necessity so as to ensure equal employment opportunity. Neither the District nor its agents shall engage in any discrimination with respect to employment in violation of any state or federal laws. I. This policy is intended to deter the use of drugs and alcohol in the workplace by establishing standard procedures for drug and alcohol testing for all employees who are required to hold a Commercial Driver's License (CDL).

II. Employers of persons performing safety sensitive functions and holding commercial drivers' licenses are required to implement a drug and alcohol testing program pursuant to the Omnibus Transportation Employee Testing Act of 1991 (OTETA), P.L. 102-143, Title V; regulations of the Federal Highway Administration (FHWA) in 49 CFR Parts 40 and 382; and 1012.45, Florida Statutes.

III. Definitions as Used in This Policy

A. **Prohibited Substances or Drugs** means any illegal drug or substance as identified in Schedules I through V of Section 812 of the Controlled Substance Act (21 USC §812) and by regulations in 21 CFR §§1308.11-.15 including, but not limited to, marijuana, amphetamines, opiates, phencyclidine (PCP), and cocaine. Prohibited use includes both use of any illegal drug and misuse of legally prescribed or obtained prescription drugs.

B. **Alcohol Use** means the consumption of any beverage, mixture or preparation containing alcohol, including any medication or product.

C. **Covered Employees** means those School Board employees who are required to hold a commercial driver's license as a condition of employment and in which a driver operates

1. a vehicle designed to carry 16 or more passengers;

2. a vehicle which weighs more than 26,000 pounds; or
3. a vehicle which carries a placard indicating hazardous cargo.

D. *Program Manager* means the staff person designated by the Superintendent as OTETA program manager.

E. *Safety-sensitive Function* or *Safety-sensitive Position* means all job responsibilities of a covered employee from the time he or she begins to work or is required to be in readiness for work until the time he or she is relieved from work.

F. *Medical Review Officer* or *MRO* means a physician with knowledge of substance abuse disorders and who has appropriate medical training to interpret and evaluate laboratory positive drug test results in a confidential manner, in conjunction with or without an individual medical history and any other relevant biomedical information, to determine alternative medical explanations for positive drug test results.

IV. Treatment and Notice Requirements

A. Notice to Affected Employees - The Board will inform all covered employees prior to conducting drug and alcohol testing and provide the reasons for conducting the test(s). The Board will provide written notice of the required testing to covered employees.

B. Education and Training - The Board will provide educational materials that explain the requirements of the program and its policies and procedures with respect to meeting the requirements.

C. Treatment Information - Each covered employee who engages in prohibited conduct shall be evaluated by a substance abuse professional who shall determine what assistance, if any, the employee needs to resolve problems associated with use of prohibited drugs or alcohol misuse. The employee is responsible for all costs associated with evaluation and/or treatment.
D. Self-referral - An employee with a substance abuse problem may refer himself/herself to a substance abuse program at any time prior to receiving notice of a required alcohol or drug test. Such an employee will be granted a leave and be required to successfully complete a rehabilitation program prior to returning to a safety-sensitive position.

V. Prohibited Conduct

A. Prohibited Substance or Drugs - No covered employee shall report for duty or remain on duty requiring the performance of safety-sensitive functions when the driver uses any controlled substance. The employee must provide advance notice to the supervisor of the use of prescribed therapeutic drugs that cause symptoms such as drowsiness and excitedness.

B. Alcohol - No driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions while having a blood alcohol concentration (BAC) of .02 or greater. The use of alcohol is prohibited during the duty day, and for four hours prior to reporting for duty. The consumption of alcohol is also prohibited for up to eight hours, or until tested, following an accident as described in post-accident testing below. While operating a vehicle, covered employees may not have any item in their possession which contains alcohol, unless that item is a part of the vehicle’s official inventory. Alcohol-free medications are available, and covered employees should advise their physicians of the need for such substitutes.

C. Refusal to Test - No employee shall refuse to submit to a required test, delay reporting for a test, or attempt to adulterate test results. Any of the above shall be considered a positive test, in accordance with FHWA regulations, and a violation of this policy.

D. Medical Review Officer Contact - No employee may refuse to contact the MRO. All initial positive drug tests must be reviewed and confirmed by an MRO. The results are discussed with the employee prior to being reported to the district. If the MRO is unable to contact the employee, the program manager will be notified. When the employee is contacted by the program manager or a designee, the employee must call the MRO immediately.
VI. Consequences of Engaging in Prohibited Conduct

A. Removal from Work - Covered employees with a confirmed positive test for alcohol or controlled substances are in violation of Board policy and will immediately be removed from safety-sensitive positions, placed on leave without pay, and provided a list of substance abuse professionals (SAP). Upon submission of a written substance abuse treatment plan from a SAP, licensed physician or counselor and enrollment in an out-patient or in-patient treatment program, the employee may be granted paid leave, if accrued leave is available, after entering into a rehabilitation contract with the Board.

Failure to contact the MRO upon notification shall be considered a violation of this policy. The employee shall be removed from the safety-sensitive position and shall be subject to disciplinary action up to and including termination.

B. Rehabilitation Program, Return-to-Duty Test - Prior to returning to work, the employee must provide written documentation of an evaluation by a SAP; the successful completion of a rehabilitation program, if recommended by the SAP; and a negative return-to-duty, alcohol and/or drug test.

C. Stand-down from Work - An employee with a BAC of .02 or higher shall be immediately removed from the safety-sensitive position for a minimum of twenty-four (24) hours and placed on leave without pay. Prior to returning to work, the employee must have a negative return-to-duty alcohol test.

D. Recommendation for Termination - Termination of employment will be recommended for any employee who

1. fails to be evaluated by a SAP or fails to successfully complete a substance abuse rehabilitation program; or
CHAPTER 6.00 – HUMAN RESOURCES

2. has a second positive test for alcohol and/or controlled or illegal substances; or

3. fails to submit to any required alcohol or drug test.

VII. Testing, Analysis, and Results

A. The Board intends to comply with all alcohol and controlled-substance testing procedures contained in 49 CFR Parts 382, 392, and 395. The School Board recognizes the need to protect individual dignity, privacy, and confidentiality in the alcohol and drug testing program. Specimen analysis shall be conducted in a manner to assure a high degree of accuracy and reliability, using laboratory facilities which are certified by the U.S. Department of Health and Human Services and the Florida Agency for Health Care Administration.

B. The following are conditions upon which testing may be conducted as required by federal regulations or when circumstances warrant:

1. Pre-employment Testing - All applicants for employment for positions requiring a Commercial Driver’s License (CDL) shall undergo testing prior to employment except as otherwise specified pursuant to 49 CFR §382.301(c). Written documentation must be provided by the candidate for employment to substantiate any exception.

2. Reasonable Suspicion Testing - A supervisor or designee outside the bargaining unit who has been trained in accordance with the requirements of FHWA regulations shall require a driver to submit to an alcohol or drug test when the supervisor or designee has reasonable suspicion to believe that a driver has violated the prohibitions contained in the FHWA regulations and this policy.

Reasonable suspicion must be based on documented objective facts and circumstances which are consistent with the long- and short-term effects of alcohol or substance abuse, including, but not limited
CHAPTER 6.00 – HUMAN RESOURCES

to, physical signs and symptoms, appearance, behavior, speech and/or body odor.

3. Post-accident Testing - Alcohol or drug testing will be administered following an accident when the driver was performing a safety-sensitive function. For this purpose, accident is defined by the FHWA to include at least one of the following criteria:

   a. loss of human life;

   b. driver received a citation from a law enforcement officer and either a driver or passenger received immediate medical treatment away from the scene of the accident; or

   c. one of the vehicles involved was to be towed from the scene of the accident due to operational impairment.

Such testing must be conducted within the time limits set forth in the FHWA regulation.

4. Random Testing - All covered employees shall be subject to random, unannounced drug and alcohol testing. The annual random rate for alcohol testing shall be twenty-five percent (25%) of the covered employees. The annual random rate for controlled substance testing shall be fifty percent (50%) of the covered employees.

Alcohol testing shall take place before, during, or after driving, and within reasonable proximity to driving. When an employee tests positive for alcohol, a second test shall be performed no less than fifteen (15) minutes and not more than twenty (20) minutes later. The results of the second test shall be controlled.

Drug testing may take place at any time during the Board’s regular work day.
5. Return to Duty Testing - All employees who previously tested positive on a drug or alcohol test must submit to a return-to-duty test and test negative prior to returning to duty.

6. Follow-up Testing - Unannounced follow-up alcohol and/or controlled substance testing as directed by a SAP in accordance with FHWA regulations shall occur when it is determined that a covered employee is in need of assistance in resolving problems associated with alcohol misuse and/or use of drugs. The number and frequency of follow-up testing shall be determined by the SAP, with a minimum of six (6) tests within a year.

7. Split Sample Test - An employee who tests positive for a controlled substance may request that a test of the split sample be conducted. The second test will be conducted by a different laboratory, as selected by the employee from a list provided by the Board. The employee shall be responsible for pre-payment of the second test by certified check or money order. However, in the event the second test is negative, the Board will reimburse the employee. If performed, the second test shall be controlling.

C. All drug testing, with the exception of employee requested tests, shall be at the expense of the School Board.

STATUTORY AUTHORITY: 1001.41, 1012.22, 1012.23, F. S.

VII. It is recognized that HIV-positive employees who are not debilitated or exhibiting symptoms that would facilitate transmission of the virus will remain in their current jobs if conditions permit.

VIII. Reasonable accommodations are available to HIV positive employees.

IX. All information regarding such matters shall be held in strict confidence and released only to those who have a legitimate need to know.

X. School Board employees shall receive and review procedures governing immunization against Hepatitis B infection, HIV, AIDS, bloodborne pathogens, other communicable disease, and environmental hazards.

XI. Staff members shall cooperate with public health authorities by practicing and promoting standard precautions, as deemed by the Centers for Disease Control and Prevention (CDC). V. The Constitution of the State of Florida requires that the District operate under a balanced budget. The Board understands that unforeseen circumstances can result in increases or decreases in revenue and/or expenditures. These circumstances would thereby affect the financial stability of the District. To ensure the financial strength and stability of the District, the Board directs that the annual adopted budget include reserves for such contingencies.

VI. The Board shall strive to maintain an ending fund balance not classified as restricted, committed, or nonspendable in its approved operating budget, i.e., unrestricted fund balance, of at least five percent (5%) of the annual revenues in the general fund. It is understood that these funds are critical to the District’s credit rating and can impact the interest rates and insurance costs associated with the District’s Certificates of Participation (COPs) necessary to provide adequate satisfactory student stations for the District’s students. Therefore, the Board finds that absent a declaration by the Board of a financial emergency, these funds shall not be spent.

VII. In addition, to provide for unforeseen circumstances during the fiscal year, including but not restricted to variances in actual full time equivalent students reported during the FTE accounting periods and prorations in state funding during each of the calculations of the Florida Education Finance Program (FEFP), the Board shall assign in the initial approved operating budget, in the category of assigned fund balance, an amount equal to no less than 1.5% of the initial amount of the revenue in the General Fund. The Board finds that to ensure the fiscal stability of the District funds assigned to this section of the budget for these purposes shall not be spent for any purposes other than to address a change in FTE students or state proration of funds until after the District receives the official report of the Fourth Calculation of the FEFP and determines the budget position of the District as a result of those calculations.

The School Board recognizes that maximum economy and efficiency are best achieved through a centralized purchasing function, which includes warehousing and distribution. All purchases of materials, supplies, equipment, and services paid from School District funds shall be the responsibility of the Chief Financial Officer or designee under the general supervision of the Superintendent.

The Superintendent may make purchases or may approve purchases of the Chief Financial Officer or designee, functioning under his or her direction, of goods and services where the amount does not exceed the bid limit that is specified in State Board of Education rule 6A-1.012(7). No person, unless authorized to do so by the Board or authorized under its duly adopted regulations, may make any purchase involving the use of school funds. The payment of any unauthorized purchases shall be the sole responsibility of the person placing the order.

I. Purchases - All purchases made from School District funds shall be in accordance with all applicable Florida Statutes, State Board of Education rules, State Department of Agriculture and Consumer Services rules, School Board rules, and administrative procedures and may include approved state online procurement. The District shall recognize purchasing terms as defined by law and rule.

A. Requisitions - Each purchase order shall be based upon a requisition originating from the principal or District department head. Each requisition or contract shall be properly financed, budgeted, and encumbered prior to issuing a purchase order. All requisitions that are not approved will be returned immediately to the originator with the explanation of why they were not approved. Under extreme emergencies, the Chief Financial Officer or designee may grant permission for a purchase without a requisition, provided that any emergency purchase shall be followed immediately with an emergency requisition. A purchase shall not precede a requisition except under emergency provisions or when using a procurement card.

B. Procurement Card – The District procurement card will be used for the purchase of goods and services when this method of payment is accepted by the vendor. Exceptions will be made at the discretion of the Chief Financial Officer or designee. Purchasing cards shall not be used in order
to circumvent the general purchasing procedures established by School Board Policy (7.70).

II. Competitive Bids and Proposals - The Chief Financial Officer or designee shall be responsible for continually estimating the needs of the school system and making quantity purchases accordingly. Standard lists of supplies and equipment shall be developed in all areas possible. All purchases where the item or group of items exceeds the amount stipulated in State Board of Education rule 6A-1.012 shall be made on the basis of competitive sealed bids and proposals, except in emergencies as provided herein. Bids or proposals shall be requested from three (3) or more sources for any item or group of similar items purchased from school funds, including internal funds that exceed the amount specified in State Board of Education rule 6A-1.012. All items exempt from bid and quotation procedures by 287.057, F.S., and State Board of Education rule 6A-1.012 shall be exempt from School Board purchasing and bidding rules. State purchasing contracts or approved state online procurement shall be used in lieu of bids when it is to the advantage of the School Board. The Board will, however, be informed of all purchases exempt from the bid process when the amount exceeds the bid limit.

A. Bid and Proposal Procedures - Purchases made through bids and proposals shall be based upon justification and specifications which are clear, complete, definite and certain as to character and quality and shall conform to standard specifications for the various classes of supplies, materials, parts, services, or equipment desired. Such specifications shall be conducive to securing the best possible price for the highest quality product or service which best meets the needs of the School District. Specifications shall be as open as possible. Invitations to bid shall include but not be limited to the following:

1. Date, time, and place of bids and proposals;

2. Procedures for presenting bids and proposals;

3. Conditions and terms for receiving bids and proposals;
CHAPTER 7.00 – BUSINESS SERVICES

4. Procedures to be followed in opening bids and proposals and making recommendation to the School Board; and,

5. The amount of the bid bond or good faith deposit, if any.

B. Conditions for awarding contracts based on bids and proposals.

1. Bids and proposals shall be opened at the time and place specified within the bid or proposal documents. No other bids shall be accepted or withdrawn after the deadline. Bids and proposals which do not qualify as sealed bids shall not be accepted. Bids or proposals received by mail shall be stamped with the time and date received. Alterations written on the outside of a bid or proposal shall not be accepted. All bid openings shall be open to the public.

2. The Superintendent or designee shall have the responsibility for soliciting the assistance of the District administrative and instructional staff and the school employees who use the products to assist in the preparation of specifications and evaluation of bids and proposals.

3. The purchasing department may maintain a list of active bidders to facilitate the purchasing function; however, the purchasing department shall not be required to notify specific bidders of upcoming bid opportunities.

4. Bids or proposals shall be requested from at least three (3) appropriate sources for each authorized purchase. All bids shall be signed in ink or indelible pencil.

5. No bid or proposal may be withdrawn after submission except with Board approval based on the recommendation of the Superintendent. Such recommendation shall specify the basis for allowing the withdrawal. After formal award by the Board, no bid may
be withdrawn by a bidder except for a material error, as determined by the Board.

6. Recommendations to the Board for action shall be determined on the basis of the lowest responsible qualified bid or proposal which meets specifications with consideration being given to the specific quality of the product, its conformity to the specifications, its suitability to District needs, the delivery terms, and the service and past performance of the vendor.

7. Sealed bids, proposals or replies in response to a competitive solicitation shall be exempt from public inspection or copying as provided in §119.071, F.S. When documents are no longer exempt, they may be inspected and copied. In no case may the original copies be removed from the custody of the purchasing department.

8. The School Board will accept the lowest and best bid that is in the best interest of the Board and meets specifications, not necessarily representing the actual lowest price offered. For identical qualified bids, the recommendation shall be for a local vendor or if there is none, by casting lots.

9. The District may award contracts to the lowest, responsible bidder as the primary awardee and to the next lowest and responsible bidder(s) as alternate awardees provided that the awarding of multiple contracts is clearly stated in the bid solicitation documents.

10. Final action of any bid or proposal shall be the decision of the Board in open session.

11. Approval of any funds not already budgeted shall be made by the Board prior to the issuance of any contract or award of any bid or proposal.

12. The Board, in its sole discretion, may waive minor irregularities in bids or may reject all bids or proposals.
CHAPTER 7.00 – BUSINESS SERVICES

C. Electronic Bidding - Electronic bidding may be utilized when it is determined to be in the best interest of the District. All requirements for advance notification of bid specifications and date and time of bidding shall be met. Multiple awards may be made provided that the solicitation documents clearly state this option.

D. Emergency Situations - Occasionally, situations arise which necessitate immediate action in order to ensure the health and safety of students and staff, or to keep a facility in operation. In such cases, at the determination of the Superintendent, the normal procedures may be waived and all Board members will be notified of such action as soon as practicable. The purchasing department shall be required to make telephone contacts to request quotations, determine availability and ability to deliver services or products in a timely manner. All such contacts must be documented and followed by written bids from those contacted. The Superintendent shall be given all facts relating to the problem and a recommendation for the purchases necessary to resolve the problem. Upon the Superintendent’s approval, the lowest and best bidder will be given authorization to proceed. A formal tabulation, giving complete details and justification, shall be submitted at the next regular Board meeting for ratification. If the Superintendent determines in writing that the time required to obtain pricing information will enhance the emergency situation, the emergency purchase may be made without quotations.

E. Bid protests shall be filed in accordance with 120.57(3), F.S. Any person who files an action protesting a decision pertaining to contracts administered by the board shall post at the time of filing the formal written protest a bond payable to the board in the amount equal to five percent (5%) of the estimated amount of the contract or ten thousand dollars ($10,000), whichever is greater, not to exceed twenty-five thousand dollars ($25,000), which bond shall be conditioned upon the payment of all costs which may be adjudged against him or her in the administrative hearing in which the action is brought and in any subsequent appellate court proceeding.

III. Informal bids (quotes) shall be requested in writing from three (3) or more sources, at the discretion of the Chief Financial Officer or designee, for any goods or services purchased from school board funds that exceed one fourth the amount specified in State Board of Education rule 6A1.012 for purchases that require bids.
CHAPTER 7.00 – BUSINESS SERVICES

Quotes are not required for items excluded from the bid procedure by 287.057, F.S. and State Board of Education rule 6A-1.012. The Chief Financial Officer or designee has the authority to require quotes for any purchase.

IV. Purchase of Food and Nonfood Items for the Food Service Program

The Superintendent shall develop and prescribe a Competitive Procurement Plan or approved state online procurement for purchasing food and nonfood supply items for the school food service program. The plan shall provide for various types of selection procedures as alternatives to the bidding requirements prescribed herein. Bidding requirements specified in this rule shall be waived if they conflict or are inconsistent with the plan.

A commodity or contractual service that is available from a single source may be exempted from requirements for competitive solicitation provided that the District posts notice of its intent to purchase a specific item or service and subsequently posts notice of its intent to enter a single source contract.

VIII. Conflict of Interest - The following provisions shall apply for conflict of interest. Any violation of these provisions by a School Board employee may be grounds for dismissal.

A. No contract for goods or services may be made with any business organization in which the Superintendent or School Board member has any material financial interest.

B. No School Board employee may directly or indirectly purchase or recommend the purchase of goods or services from any business organization which they or their relations have a material interest as defined by 112.312, F.S. except as allowed by DOE Interpretative Memorandum No. A-20.

C. School Board employees or officials may not receive gifts or any preferential treatment from vendors. A School Board employee shall not be prohibited from participating in any activity or purchasing program that is offered to all School Board employees or in District surplus sales provided there is no preferential treatment.

IX. Multi-year Purchase Agreements

No obligation shall be created by contract, purchase order, maintenance agreement, lease-purchase agreement, lease agreement, or other instrument
which exceeds a period of twelve (12) months, unless such agreement contains a statement permitting the School Board to unconditionally terminate the obligation at the end of any twelve (12) month period. The Superintendent shall develop and prescribe a uniform termination clause that shall be incorporated in and made a part of any multi-year obligation agreement or contract.

X. All contracts for purchases made at the school level using internal funds shall be initiated by the principal and shall follow the same procedures prescribed for purchasing in this policy.

REVISION DATE(S): 9/20/16
FORMERLY: EE
Each student who is transported shall be entitled to free transportation provided he/she abides by the rules of safety and behavior necessary to operate the District’s transportation system. Serious infraction of these rules may result in the loss of the student’s privilege. The student’s parent, as defined by Florida Statutes, shall be responsible for making sure the student abides by the rules or for providing the student’s transportation. Suspension from a bus shall not affect the attendance laws and rules.

I. Any student who resides two (2) or more miles from his/her designated school by the most direct traveled route is eligible to ride the school bus to and from that school. These students shall be reported for funding purposes. Under the following conditions, students who reside within two (2) miles of the designated school may be eligible to ride the school bus.

A. Special authorization is granted by the School Board.

B. An exceptional student not requiring special care may ride a school bus regardless of distance from home to school upon furnishing a statement from the director of exceptional students or designee certifying that the student is handicapped and is unable to walk to school.

II. A student who is eligible for transportation and resides beyond the accessibility of a school bus may be provided transportation by payment from the School Board to the parent for use of a private automobile or other conveyance for this purpose.

III. The School Board may cooperate with other school districts to provide transportation for students.

A. When it is practical to extend a school bus route to serve any territory located in another school district, the School Board shall enter into an agreement with the School Board of the other district to provide transportation services to students residing in the adjacent school district. Any such agreement shall be recorded in the official School Board minutes of each school board. The agreement shall state in detail the responsibility
of each school board for operating the school bus and maintaining a daily schedule.

B. Whenever a school bus crosses a school district line, all rules of the School Board shall apply to students transported by the said school board unless otherwise stated in the agreement between the school boards.

IV. Only a student who is regularly enrolled as a transported student and whose name appears on the bus operator’s handbook for that bus shall be permitted to ride such bus while it is being operated on a regular school bus route except upon the written request of the transportation supervisor. Such approval may be granted only when the student’s welfare is involved due to an emergency condition in the home. When an emergency condition exceeds five (5) school days, the Superintendent’s approval shall be required. Approval shall not be allowed for

A. Student visitation, unless duly authorized; or

B. A student to obtain transportation to his/her regular place of employment.

V. No person shall be eligible for transportation on a field trip or extracurricular school trip unless he/she is authorized by the principal or designee.

VI. Maximum regard for the safety of students and due consideration for the protection of health of all students transported shall be primary requirements in the routing of buses, establishing student stops, appointing operators, and in providing and operating transportation equipment.

VII. A student who arrives early or remains late because of transportation service shall be under school supervision at all times and shall, if practicable, have a planned schedule of activities. The principal shall be responsible for providing such supervision.
VIII. Students become the responsibility of the District only after they board the bus. The School District is not responsible for student behavior prior to that time while the student is at the designated bus stop.

IX. Each route shall be planned and adjusted as nearly as possible to the bus capacity. Travel each morning and afternoon shall be considered in planning and establishing bus routes and, so far as practical, not exceed fifty (50) minutes for elementary students and sixty (60) minutes for secondary students.

X. Periodically student transportation routes and student walking conditions shall be reviewed to determine if hazardous conditions exist. Appropriate requests for designation of hazardous conditions shall be provided as required by state law or State Board of Education rules.

I. Designation of Bus Routes - The School Board shall delegate to the Superintendent authority to designate the route to be traveled regularly by each school bus. Each such route shall meet the following requirements:

A. The route shall be planned, scheduled, and adjusted to the capacity of the bus to serve students whose homes are beyond a reasonable walking distance from the school center to which they are assigned, except as otherwise provided by Florida Statutes and State Board of Education rules. The routing and scheduling of buses shall be planned to eliminate the necessity for students to stand while the bus is in motion. In emergency situations where the number of transported students in a bus exceeds the rated seating capacity, the bus shall proceed at such a reduced rate of speed to maximize students’ safety.

B. Designated school bus routes shall be restricted to those areas where road conditions, bridge capacities, and the number of transported students allow such service to be economically feasible and practicable.

C. A route shall not be extended for the purpose of accommodating students whose homes are within a reasonable walking distance by a shorter or more economical route which is available to serve the students.

D. School bus routes shall, insofar as possible, be restricted to main routes and county-maintained roads.

E. A suitable turning area shall be available for any route requiring a bus to be turned around.

F. Only one (1) bus shall be assigned students on any given route unless the school schedules necessitate a dual assignment of buses.

G. Student loading and unloading stops shall be established at least two tenths (.2) of a mile (1,056 feet) apart; however, stops may be closer when students’ safety and welfare are involved.
H. The location of each bus stop will conform to the requirements of Florida Statutes.

II. Spur Routes - A spur route shall exist only when an extremely hazardous condition is present, requiring the bus to deviate from the main trunk.

III. Change in Routes - School bus drivers shall not discontinue stops, begin new stops, or otherwise change a route without prior approval of the Superintendent or designee.

IV. Nontransportation Zones - The School Board shall designate nontransportation zones that represent areas in the District where transportation services are unnecessary or impracticable. Nontransportation zones shall be designated annually prior to the opening of school and prior to the designation of bus routes for the ensuing school year.

CHAPTER 8.00 – AUXILIARY SERVICES

A. The bid time and date shall be established by the School Board after the Superintendent’s recommendation.

B. Bids shall be opened at the designated time in the invitation to bid. At the designated time, the person presiding shall inquire if all bids have been received; no other bids shall be accepted and no bid may be withdrawn after the deadline. Negligence on the part of the bidder in preparing the bid shall confer no right for withdrawal after the designated time for opening of bids. Bids received by mail shall be stamped with the time and date received by the purchasing office.

C. All bids shall be opened, read aloud, and recorded in the presence of all persons.

The Board will consider all bids received and within the time limit stated in the advertisement for bids will either reject all bids or award the contract to the lowest and best bid with preference to materials, contracts, builders, architects, and laborers who reside within the county and state, whenever such materials can be purchased at no greater expense.

F. When a construction contract has been awarded to a contractor on the basis of proper bids, payments on that contract shall be made on a scheduled basis in an amount approved by the architect. This amount shall consider the five percent (5%) hold-back required by Florida Statutes. Upon completion of the construction, the final payment shall be made only on the School Board’s approval after proper inspection of the facilities.

VIII. The specifications for construction bids may not be written to limit any purchase of systems or materials to a specific brand or a single source of supply, unless the School Board, after consideration of all available alternative materials and systems, determines that the specifications of a sole material or system is justifiable, based upon its cost interchangeability.
IX. Contractors entering into contracts with a subcontractor, must have an affidavit from the subcontractor stating the subcontractor does not employ, contract with, or subcontract with an unauthorized alien.

A. Contractor must provide evidence of compliance with Florida Statute Section 448.095. Evidence may consist of, but is not limited to, providing notice of Contractor’s E-Verify number.

C. Contractor shall provide a copy of sub-contractor affidavit to the School Board upon receipt and shall maintain a copy for the duration of the Agreement.

D. Failure to comply with this provision is a material breach of an Agreement, and School Board may choose to terminate the Agreement at its sole discretion. The School Board shall prequalify contractors for a one (1) year period or for a specific project in accordance with the following:

I. Criteria

Contractors shall be prequalified on the basis of the following criteria and any additional criteria specific to the project under consideration:

A. Proof that the contractor holds a contractor’s license which authorizes the contractor to supervise work within the scope of the construction project.

B. Evidence that the applicant has financial resources to start up and follow through on projects and to respond to damages in case of default as shown by written verification of bonding capacity equal to or exceeding the amount of any project for which the contractor seeks prequalification. The written verification must be submitted by a licensed surety company rated excellent (“A-“ or better) in the current A.M. Best Guide and qualified to do business within the state. In the absence of such written verification, the Board may require the applicant to submit any audited financial information necessary to evaluate an applicant’s financial ability to perform the project and to respond to damages in the event of default.

C. Evidence of experience with construction techniques, trade standards, quality workmanship, project scheduling, cost control, management of projects, and building codes for at least two (2) similar or less cost or scope projects of similar size within the past five (5) years.

D. Evidence of satisfactory resolution of claims filed by or against the contractor asserted on projects of the same or similar size within the five (5) years preceding the submission of the application. Any claim against a contractor shall be deemed to have been satisfactorily resolved if final

judgment is rendered in favor of the contractor or any final judgment rendered against the contractor is satisfied within ninety (90) days of the date the judgment becomes final.

E. Type of work for which the contractor is licensed.

II. Procedures

A. The Board shall hold a public hearing to discuss the Board’s intent to prequalify contractors and the proposed policies, procedures and rules.

B. The Board shall publish two (2) notices of the public hearing in a local newspaper having general circulation throughout the District and least thirty (30) days and again seven (7) days prior to the hearing. The notice shall contain at least the purpose, date, time, and place of the hearing.

C. It is the policy and procedure of the Board to provide for open competition which shall not prevent the submission of a bid nor prohibit the consideration of a bid submitted by a prequalified contractor. Those standards which the Board applies when soliciting bids for goods and services generally shall be applied equally to the solicitation of bids from prequalified contractors.

D. It is the policy of the Board to allow for prequalification of any responsible contractor who, through its submittal to the Board, meets the uniform criteria established by the State Requirements for Educational Facilities and incorporated in section I. of this policy whether such contractor is a resident or nonresident of the geographical area served by the Board.

E. It is the policy of the Board to allow those contractors seeking prequalification to submit all required company financial information separate and apart from the other required submittals, as specifically outlined in the Prequalification Submittals section of the Request for Qualifications, in an effort to protect privileged company information from public disclosure.
F. The Board shall appoint a Contractor Prequalification Review Committee to review and evaluate the submissions and to make recommendations to the Board as to which contractors should be prequalified to bid for types of project, dollar volume and limits allowed within the scope of the prequalification.

G. These prequalification procedures shall not supersede any small business, woman-owned, or minority-owned business enterprise preference program adopted by the Board.

H. Notwithstanding anything contained herein, the Board may reject any proposals which, in the Board’s sole opinion, contain inaccurate information. In addition, the Board shall have the sole discretion to declare a contractor delinquent and to suspend or revoke a prequalification certificate.

I. The Board shall receive and either approve or reject each application for prequalification within sixty (60) days after receipt by the Board’s administrator. Approval shall be based on the criteria and procedures established in this policy.

III. Application

Each contractor, firm, or person requesting prequalification shall submit separate applications that include the following:

A. Detailed information on Board prescribed forms setting forth the applicant’s competence, past performance, experience, financial resources, and capability, including a Public Entity Crimes Statement, and references.

B. Audited financial information current within the past twelve (12) months, such as a balance sheet and statement of operations, and bonding capacity. The requirement for financial information may be satisfied by the contractor providing written verification of the contractor’s bonding capacity.
CHAPTER 8.00 – AUXILIARY SERVICES

C. General information about the contractor company, its principals, and its history, including state and date of incorporation.

D. Beginning January 1, 2021, every contractor and subcontractor desiring to enter into a contract with the school district shall register with and use the E-Verify system to verify the work authorization status of all newly hired employees. Contractors entering into contracts with a subcontractor, must have an affidavit from the subcontractor stating the subcontractor does not employ, contract with, or subcontract with an unauthorized alien.

1. Contractor must provide evidence of compliance with Florida Statute Section 448.095. Evidence may consist of, but is not limited to, providing notice of Contractor’s E-Verify number.

E. Contractor trade categories and information regarding the state and local license and license numbers held by the applicant.

F. A list of projects completed within the past five (5) years, including dates, clients, approximate dollar value, and size.
CHAPTER 8.00 – AUXILIARY SERVICES

G. Certificates of insurance confirming current workers’ compensation, public liability and property damage insurance as required by law.

H. A list of all pending litigation and all litigation within the past five (5) years, including an explanation of each. Litigation initiated by the contractor to protect the contractor’s legal rights shall not be used as a basis for rejecting prequalification.

I. The completed application and financial information shall be attested to and signed by an authorized officer of the company, the owner, or sole proprietor, as appropriate. The signature shall be notarized.

J. Exception: When two (2) or more prequalified contractors wish to combine their assets for a specific project, they may do so by filing an affidavit of joint venture. Such affidavit shall be valid only for that specific project.

IV. Issuance of Certificate

The Board shall issue to all prequalified contractors a certificate valid for one (1) year or for the specific project. That certificate shall include the following:

A. A statement indicating that the contractor may bid for projects during the time period specified.

B. A statement establishing the type of work the contractor will be permitted to provide.

C. A statement establishing the total dollar value of work the contractor will be permitted to have under contract with the Board at any one time as determined by the contractor’s bonding capacity or ten (10) times the net quick assets.
D. A statement establishing the maximum dollar value of each individual project the contractor will be permitted to have under contract with the Board at any one time. The maximum value of each project may be up to twice the value of the largest project previously completed, but shall not exceed the contractor’s bonding capacity or ten (10) times the net quick assets.

E. The expiration date of the certificate.

V. Renewal of Certificate

Certificates not for a specific project shall be renewed annually.

A. Financial statements or written verification of bonding capacity on file with the Board shall be updated annually. Failure to submit a new statement or verification of bonding capacity, after at least thirty (30) days written notice by the Board, shall automatically revoke a prequalification certificate.

B. Prequalified contractors may request a revision of their prequalifications status at any time they believe the dollar volume of work under contract or the size or complexity of the projects should be increased if experience, staff size, staff qualifications, and other pertinent data justify the action.

VI. Delinquency

The decision to declare a contractor delinquent may only be made by the Superintendent and must be ratified by the Board at its next regular meeting following the decision by the Superintendent. Should the contractor be determined to be delinquent, after notice and an opportunity for a fair hearing, the Board shall notify the contractor and his surety, in writing, that the contractor is disqualified from bidding work with the Board as long as the delinquent status exists. A delinquent condition may be determined to be in effect when one (1) or more of the following conditions occur without justifiable cause:
A. A substantial or repeated failure to comply with contract documents after written notice of such noncompliance.

B. A substantial or repeated failure to provide supervision and coordination of subcontractor’s work after written notice of such failure.

C. Substantial deviation from project time schedules after written notice of noncompliance.

D. Substantial or repeated failure to pay subcontractors after the Board has paid the contractor for the work performed by the subcontractors and in accordance with approved requisitions for payment.

I. The Superintendent when recommending the preliminary school budget, or any amendments thereto relating to capital outlay projects may, after evaluation, recommend to the School Board that suitable projects costing two hundred thousand dollars ($200,000.00) or less be provided on a day labor basis.

II. Parent groups, school staff and civic associations often raise funds to make improvements to various School Board facilities. Such changes are regulated by building codes, Florida State Department of Education rules, School Board rules and Florida Statutes. In addition, these changes often have cost implications on maintenance, energy usage and inhibitions to future site construction. The change or addition always poses questions regarding Board liability for the facilities as any deviation from state regulations would be a factor in a damage suit, if the change in facility was related to a personal injury.

III. When a project is being considered at any existing facility, the following procedures shall be followed:

A. A description of the proposed project, including an approximation of the expected cost, shall be submitted to the school principal for review and approval on the Request for Change(s) to School Board Facility form.

B. Full funding for the design costs, construction and any other related costs must be identified.

C. If the principal is in agreement, he/she shall request approval from the Superintendent to submit the request.

1. If the project requires funding from the District, the Director of Finance must be consulted to determine feasibility and availability of funds.
2. Should a booster club, PTA, or other school affiliated group be supplying the funds, the Superintendent must be informed.

3. All projects must comply with State Board of Education rules.

4. If the project will affect the student capacity of the school, approval of the Superintendent is required.

D. Prior to an installation or construction, a detailed design must be submitted to the facilities supervisor. The content of this request shall include a detailed project description and a statement regarding the method of funding. Plans and/or specifications will be reviewed by the facilities and maintenance departments.

1. Upon completion of the plans and specifications, such must be submitted for review for compliance with State Board of Education Regulations with consideration given to the impact upon the maintenance and energy usage of the facilities and inhibitions to future site construction. A minimum of ten (10) days is required and must be provided for review of plans and specifications, plus time to prepare an agenda item to present to the School Board if judged appropriate by the Superintendent.

2. After approval by the School Board, plans may require submission to the Department of Education for approval which will take approximately two (2) to three (3) months.

3. Upon Department of Education approval (if required), the project must either be formally advertised and bid, in accordance with State Board of Education rules or a minimum of three (3) sealed proposals must be obtained to ensure compliance with the Construction Documents. The bids must contain a work schedule to facilitate inspections by the reviewing department.

Projects funded by booster clubs, PTA or other school affiliated groups, will also be handled by the respective group during the bid/proposal process. It is recommended proposals be sealed when
CHAPTER 8.00 – AUXILIARY SERVICES

submitted and opened at a designated time, in the presence of at least the school principal, the president of the parent group, a representative of the purchasing department, facilities department, or maintenance department, and the designing architect or engineer, if applicable.

E. In the event the project cost is expected to exceed fifty thousand dollars ($50,000.00), a registered architect/registered professional engineer must be engaged to design, prepare, and “seal” the necessary construction documents in accordance with State Board of Education rules. The project cost shall include all materials and labor, production design fees, reproductions, testing and surveys.

F. All bids or proposals, including work schedules, must then be submitted to the facilities supervisor for review and determination of the low bidder’s compliance with the project’s contract documents. The project’s originating group must make a recommendation regarding acceptance of the low bidder.

G. When compliance has been established, PTA, booster club, or other school affiliated group will receive written authorization to proceed from the Superintendent.

H. Depending on the scope of work involved, supplemental, periodic inspections may be made by the maintenance department as determined by the facilities supervisor.

I. Upon completion of the work the facilities supervisor must be contacted for final inspection prior to acceptance of the School Board at one of its regularly scheduled meetings.

I. All requested change orders must be in writing and must be approved in writing before the work is done.
